

Built for the

challenge

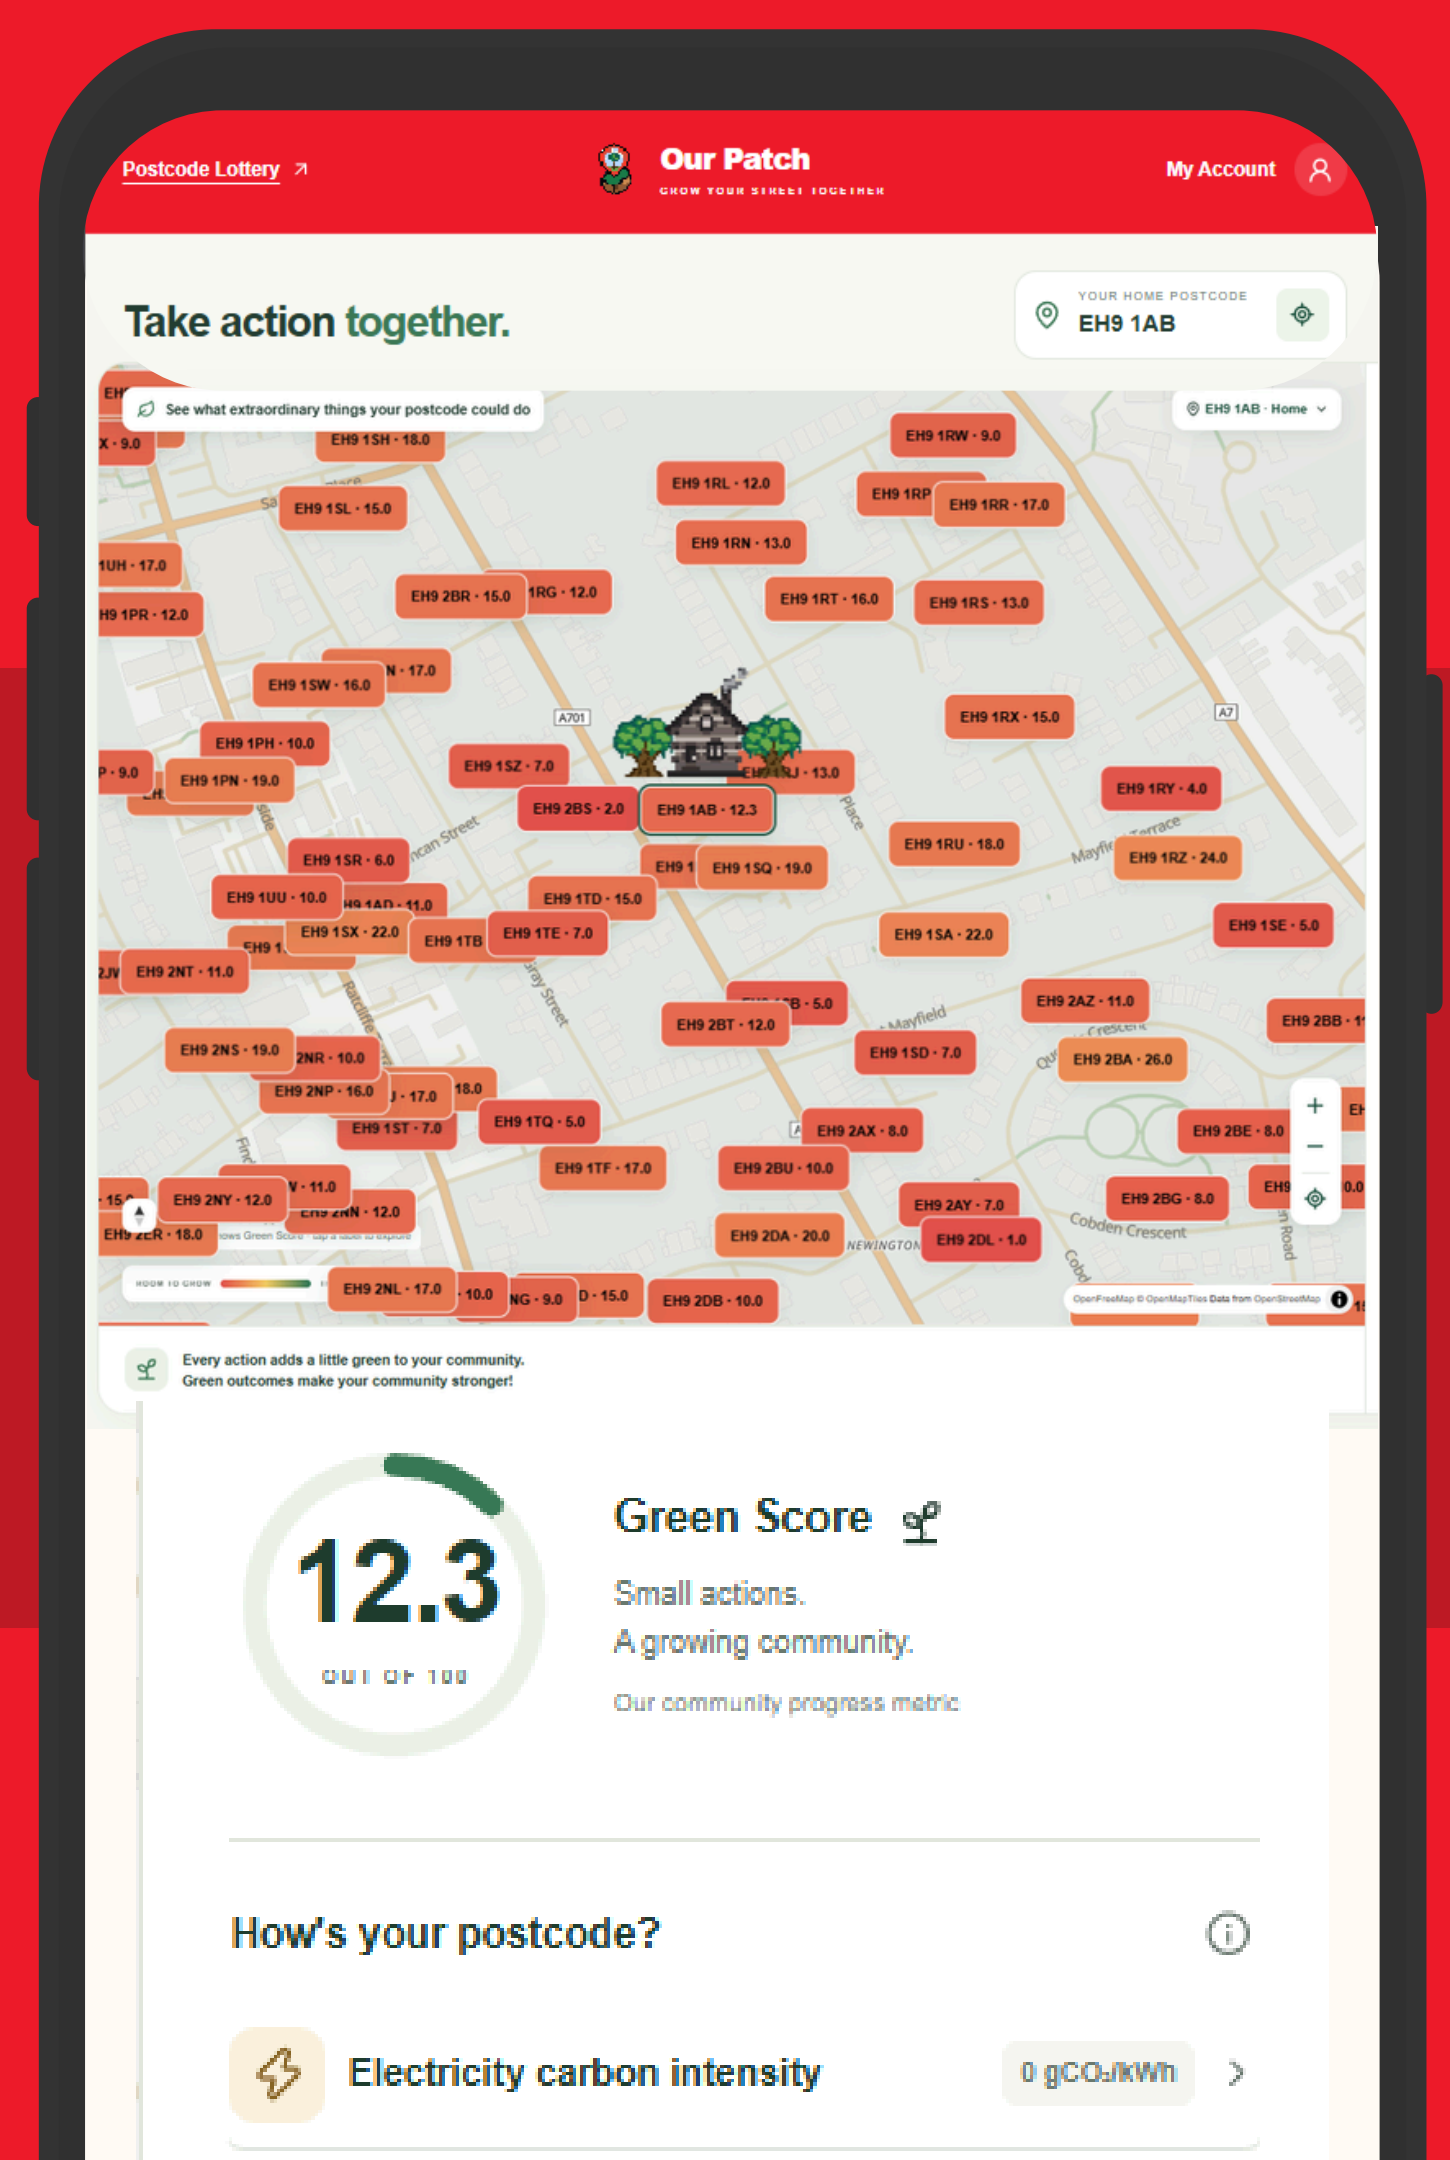

Our Patch

Grow your **street** together!

Presented By:

Team **FlickFlack** - Christy, Firas, Krishnasree & Lea

Problem

 **Streets are a bigger hinderance to sustainability than many realize.**

In Edinburgh, transport accounts for 31% of the city's total carbon emissions.

 **One person's effort can often feel insignificant.**

16% residents explicitly stated they were not convinced their sustainability life changes would be worth the effort.

 **Communities don't interact specifically for sustainability.**

88% of residents view climate change as an urgent issue, but local communities find it difficult to interact with formal sustainability and climate initiatives

From your Postcode Lottery account to your street

01

Sign up with your lottery account

Your Postcode Lottery account links you to your postcode.

02

Find your street on the map

View community status and green health by postcode

03

Live Data + community actions set the color

Air from Open-Meteo, electricity from the Carbon Intensity API,

04

Trees grow as the street improves

Green, yellow or red shows health. Trees show progress.

How do you earn points?

Complete tasks, each worth different points.

Postcode streak

Complete 5 of 10 tasks each week.

Points by task

Different tasks earn different points.

Better together

More neighbours means more points.

Verified actions

Charity drops need a QR code or receipt.

GreenHour

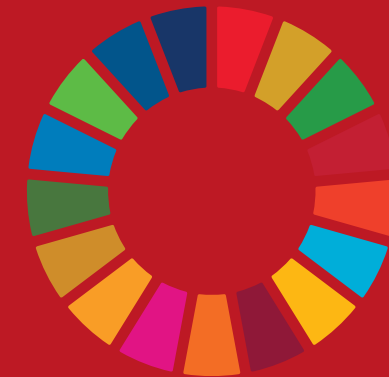

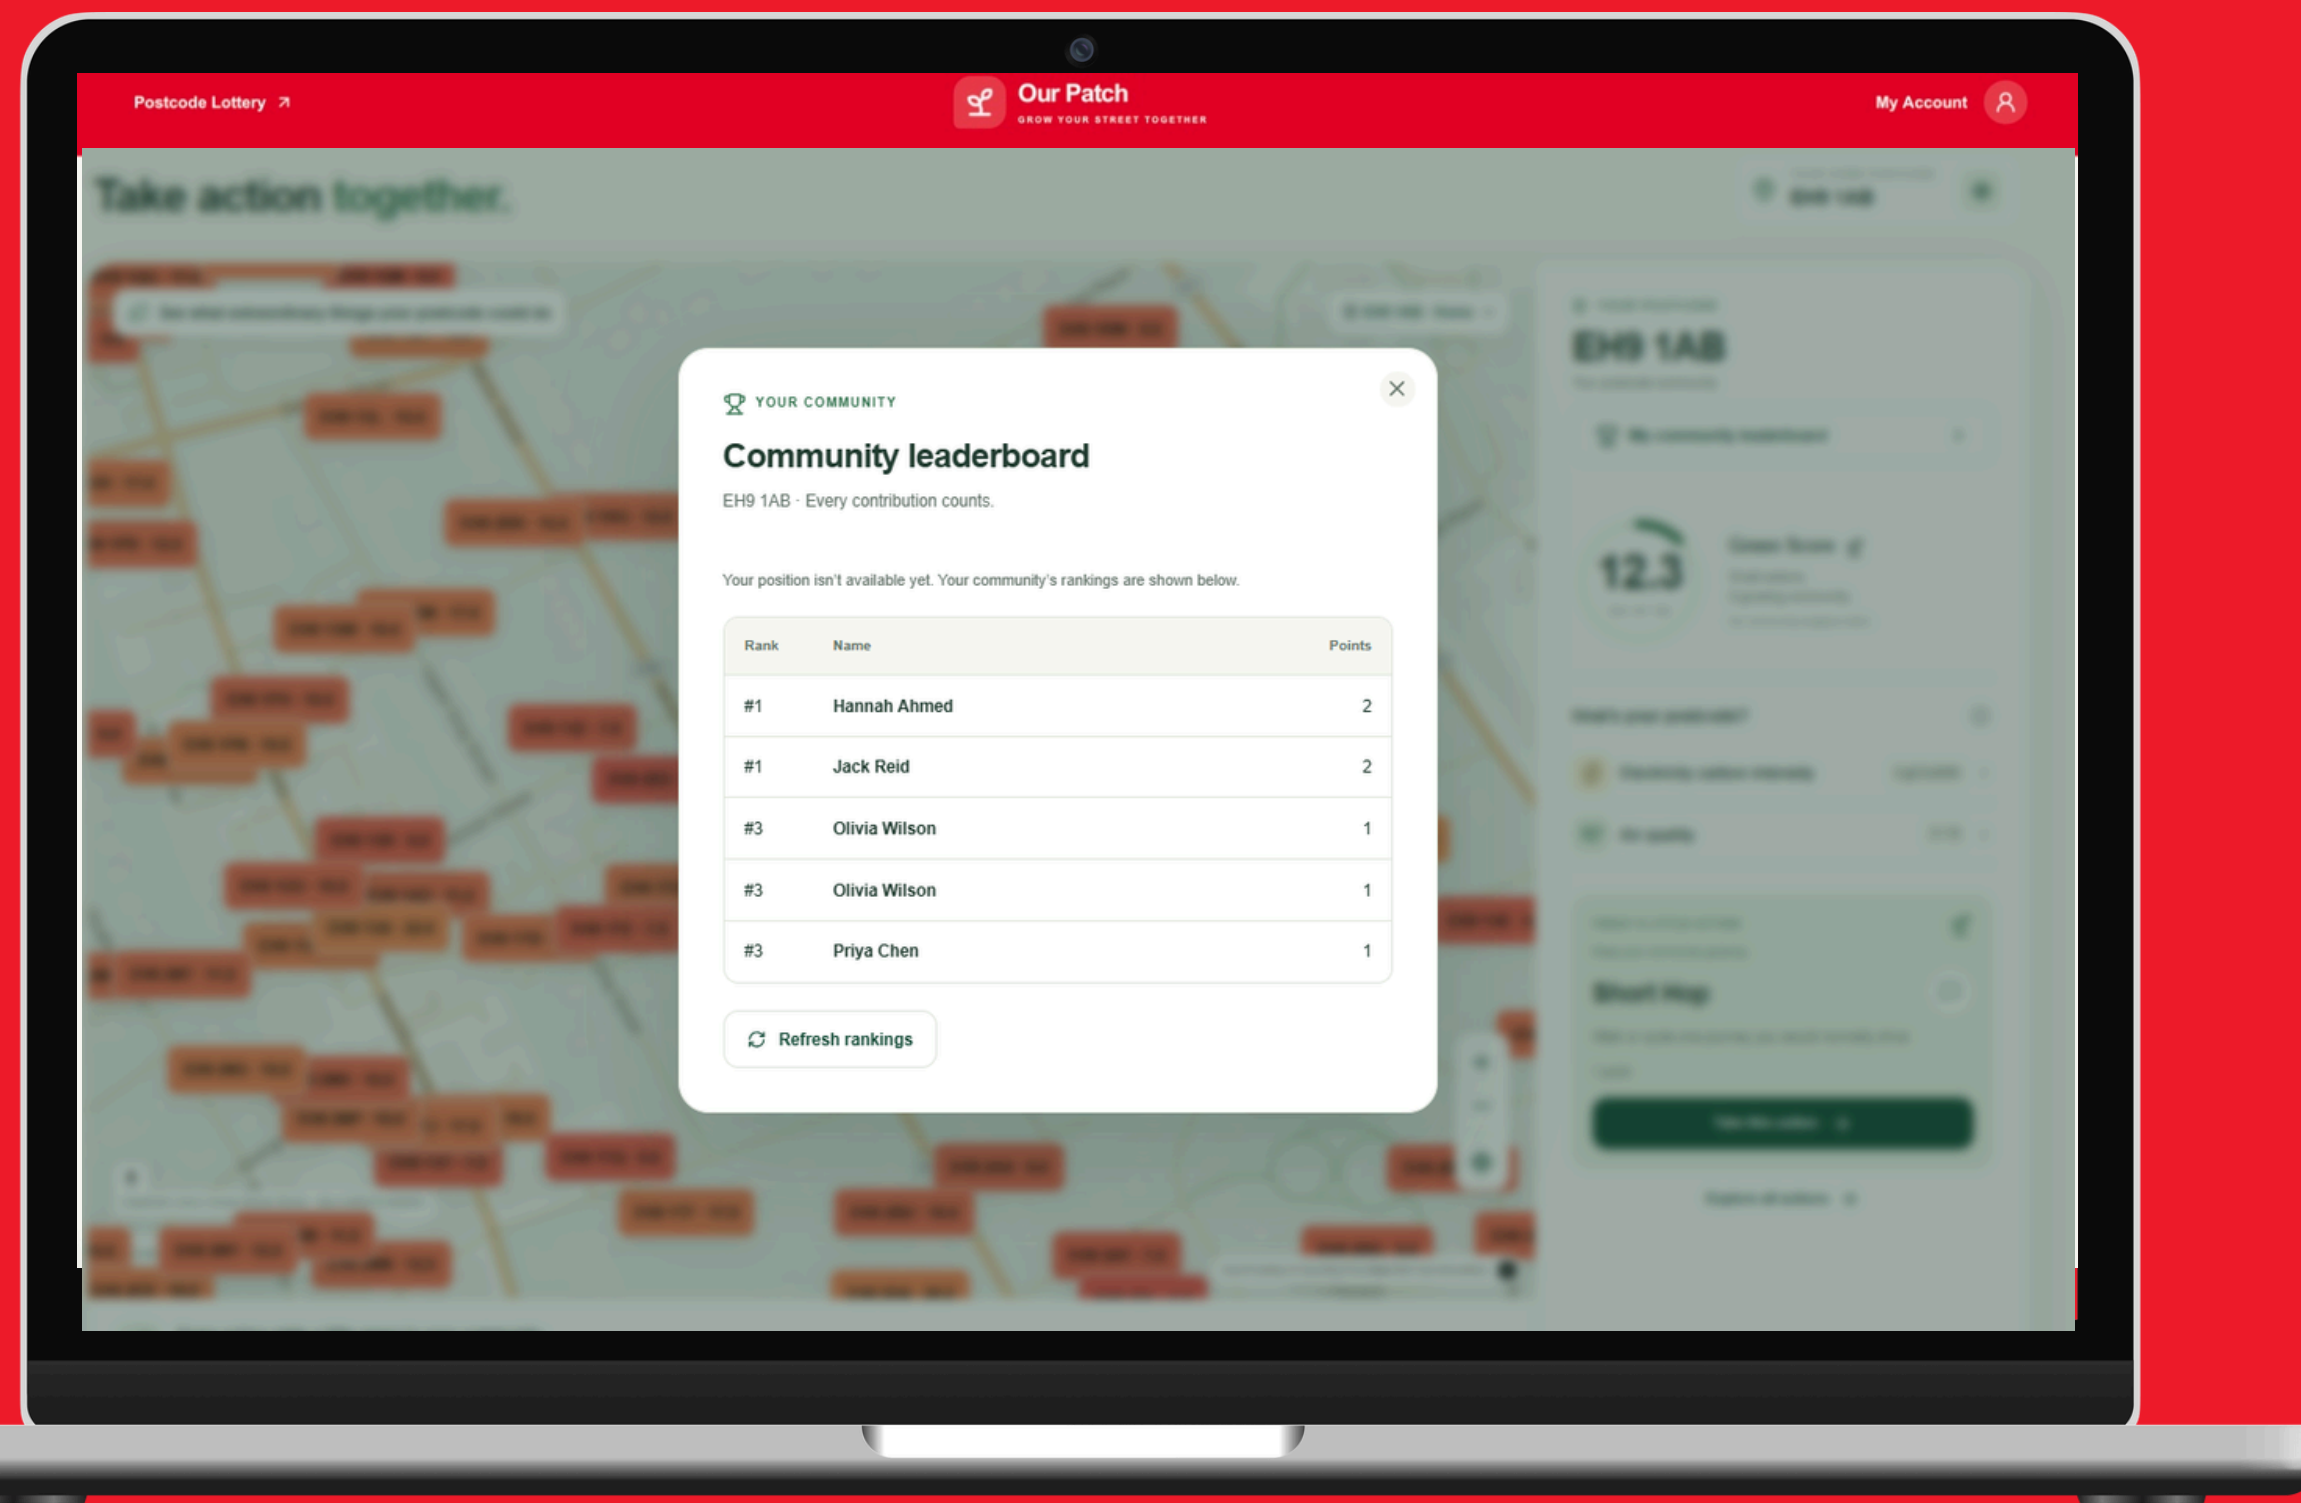

Bonus window active · Tasks are 2x the points for the next hour

🕒 00:31:39

Join us during **GreenHour**

- The app finds a daily window to start bonus hour in
- Neighbours join with one tap, and a counter shows how many are in.
- Usual tasks done inside the window earn bonus points.

Challenges & Leaderboards

SDGs we target:

Why use Our Patch?

Because your street does **better** when you **act together**.

Who is it for?

- Neighbours who share a postcode.
- Older residents who care about their local community.
- Young families and professionals, the lottery's fastest growing group.

What makes it Unique?

- You win with your street, so you go green with your street
- No need to make new accounts - just use your preexisting Postcode Lottery account
- Real actions, whether small or big, make a difference!

Why Users come back?

- Watch your street turn green - and keep the postcode streak alive
- Sustainability: small habits, done by a whole street.
- Task feedback integration for the community - if it isn't relevant for you, you can give us feedback!

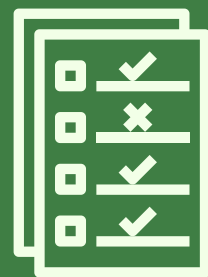

Future Implementation

Changes to implement in future runs include but are not limited to:

**Integration with
Postcode Lottery**

Fair Scoring

Community Chats

**Action Verification &
Feedback loops**

How did we do this in 12 hours?

Because we did it together!

- Agreed the idea and **split the work** before writing any code
- Played to our **strengths**
- **Checked in** often and **helped each other** when stuck
- Picking our **strong suites**
- **Feedback loop** between members - helping each other out
